## AICHE 35 Under 35

Posted Aug 16, 2017

Print | Share

Two CBE alumni — Ruth Misener '12 and Cole DeForest '06 — made it to the [AICHE 35 Under 35 list](#). This award acknowledges the achievements of some of AIChE's youngest members. Cole DeForest, who was awarded in the bioengineering category, is an assistant professor in the Dept. of Chemical Engineering at the Univ. of Washington where he aims to develop [novel biomaterial-based](#) strategies for human health applications. Ruth Misener, awarded in the innovation category, is a lecturer (USA equiv. Assist. Professor) in the Dept. of Computing at Imperial College London. Her [research](#) is concerned with bioprocess optimization under uncertainty and petrochemical process network design and operations.
